### **DETAILED ACTION**

The following action is in response to the amendment filed for application 10/825,595 on August 14, 2006.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with George Loud on September 20, 2006.

The application has been amended as follows:

claims 10-11 and 13-29 have been canceled.

#### ***Allowable Subject Matter***

Claims 1-3, 5-8, 12 and 30 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the vehicle running range switching device as claimed, and particularly including the conversion mechanism being a ball screw including a ball screw shaft rotated by the motor, a ball nut driven by the ball screw shaft so as to move axially with respect thereto and balls interposed between the ball screw shaft and the ball nut; a detent mechanism for holding the range switching member in the specific selection region, and including the remaining structure of claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
